

Ca' Pisani Design Hotel presents "Edie" by Elena Cutolo / Purho

The Venice Glass Week 2018 - II° edition

**Ca' Pisani Design Hotel
Dorsoduro 979/a, Venezia
September 9th — 30th, 2018**

For this new edition of **The Venice Glass Week**, an international festival devoted to the artistic glass industry scheduled from September 9th to 16th all around Venice, the Ca 'Pisani Design Hotel, in collaboration with AtemporaryStudio and Ilaria Ruggiero, presents **EDIE** an important project that integrates the hotel's lounge area with the design glass of Murano.

Conceived to turn the lounge area into an immersive environment merging art and design, **EDIE** is an installation of blown glass designed by Elena Cutolo, a talented designer, whose artistry developed under the guidance of Ettore Sottsass.-These stunning artworks are produced by Purho, a company that enlivened the relationship between blown glass and the contemporary design, through the filter of the Murano tradition.

Created for the design hotel in a series of new colors and in limited edition, next to the vases Edie and Edie '60 a new series of bowls of the same collection will be presented for the first time. Characterised by generous dimensions, bold colours, minimal graphics and decorations, the site-specific installation will give a unexpected glance to the interior, further emphasized by the dialogue with the glass pieces.

Characterized by a typical 14th-century Venetian architecture with the furnishings influenced by Art Deco (in particular Fortunato Depero) the Ca 'Pisani is the hotel for lovers of art and international design, a privileged place to host this site-specific installation of glass vases with different color combinations.

EDIE exposition will be open from 9 to 30 September, from 9 am to 7 pm.
